business**

SHIP MANAGEMENT & TECHNICAL SERVICES

- **PSM ensures safe ship operations following international standards**
- **Get Oil Majors' approval and satisfy ship owners' requirements**

SHIP MANAGEMENT & TECHNICAL SERVICES

- Save costs in hiring external technicians and avoiding off – hire time in case of emergency repair or maintenance thanks to experience in repairing & fixing of superintendents and crews onboard.
- PSM's management system is inspected and certified by DNV-GL with ISM code, ISPS code, OHSAS 18001: 2007, ISO 9001:2008 and ISO 14001:2004. This system also complies with other IMO regulations and standards such as OCIMF and TMSA.

SHIP MANAGEMENT & TECHNICAL SERVICES

- **Minimum the off-hired time of ship for docking: for Aframax oil tanker, the off-hired time of ship is only approximately 40 - 60 days → save daily hired – vessel cost.**
- **Reduce crewing costs by employing well-qualified Vietnamese crews instead of foreign crews**

SHIP REPAIR AND MAINTENANCE SERVICES

Maintenance and repair services of PSM help ship owners completely release concerns about any problems arising during operation. With a team of high capabilities technical experts, PSM is always ready to:

- Consult to help ship owners resolve technical issues related to the operation, maintenance and repair of ships and onboard systems.
